

## Bug Tracker - Bug #951

### Trash cleanup (cleartrash.nss) using incorrect timestamps.

03/17/2019 11:30 PM - Gorgon CCC

<b>Status:</b> Resolved	<b>Steps to Reproduce:</b>
<b>Priority:</b> Normal	
<b>Category:</b>	
<b>Modules Affected:</b> All	
<b>Systems Affected:</b>	
<b>Description</b>	
<p>#924 recently fixed a problem with trash cleanup, where it was using a combination of IG and RL times when calculating when to clean up trash.</p> <p>datetime2.nss uses IG 20 minute hours when getting the current time, then uses 60 minute hours for comparing it to a saved timestamp, so it causes problems. In most cases, it isn't obvious since cleanup usually happens within 16 minutes, but there are several ways it can cause cleanup to run much earlier than intended.</p> <p>E.g., If the 20 minute "hour" changed, it would immediately clear anything set after that time, since an hour is supposed to be 60 minutes as far as datetime2 is concerned.</p>
