

Bug Tracker - Bug #953

Another possible minor exploit found

03/18/2019 12:27 AM - xiaou tuzi

Status: Closed	Steps to Reproduce: Run /psi focus. When the animation completes run /psi harness, manifest a psionic power successfully, for no PSP's.
Priority: Normal	
Category:	
Modules Affected: All	
Systems Affected: Psionics	

Description

I was able to run psi harness, then psi focus and then manifest a psionic power I typically fail the check for ("Combat Mind" without buffing first) successfully at no PSP cost. I could only do this once as psi harness is once per rest but I mentioned it to a team member who advised I make a bug report.

History

#1 - 03/18/2019 12:31 AM - Hamlet QA & PH

@[Calzier](user:114) I don't suppose these should stack?

#2 - 03/18/2019 03:46 AM - Calzier CCC

- Status changed from New to Closed

This is not a bug. Stacking these augments has been possible since the meditation crystals were introduced. So long as they apply only to the next manifested power, they are working as intended.

#3 - 03/18/2019 11:56 AM - Hamlet QA & PH

- Private changed from Yes to No

Making this public to confirm that this is how psionic augmentation has worked to date (from items, and now from commands).
